In Figure 10, the structure labeled 75 was amended to position the point of attachment of OTBMS to the structure through the O atom. In Figure 12b, bonds were corrected in the structure labeled 217. In Figure 14, the structures labeled 184 and 185 were repositioned in accordance with pages 126-128 of the specification. In Figure 27, the structures labeled 155 and 156 were corrected such that the point of attachment is to the S atom, not the Et group. The drawing amendments are all supported by the specification, in particular, by the drawings as originally filed. Accordingly, no new matter has been added. Entry of the enclosed formal drawings is respectfully requested.
